Recap from the demo yesterday and Scrum of Scrums:

Information from yesterdays demo is that there will be companies watching our presentation from next week.

All groups seems to have an ACC that works good or less good. Not all groups have been exploring the options with the camera.

Lots of discussions about the lights at the demoarea at yesterdays demo.

It will be decided on Thursday what time we will do our demo. We will work together with the other groups on Thursday on Lindholmen to test before the demo.
